

## HOW TO WIN THE INSURANCE GAME

If you're in an accident, your insurance company will try to pressure you into going to one of the auto body shops in their Direct Repair Program (DRP). Why? To save themselves a lot of money. The insurance companies pay the DRP shops less, which is why these facilities often use inexperienced workers, inferior parts and low quality paint.

The solution: Know your rights. You're entitled to go to the repair shop of your choice! In fact, your out-of-pocket cost will be the same whether you take your vehicle to a DRP facility that's working for them or an independent facility that's working for you.

### **INDEPENDENT & ON YOUR SIDE**

Although Clark's Auto Body Express works with all of the insurance companies, we do not have contracts with any of them. Our only loyalty is to you, the vehicle owner. So when the insurance adjuster tries to write an estimate that only covers the cost of inferior used or aftermarket parts (without, of course, mentioning this to you), you can count on us to reject this estimate and let you know what's going on.

### **FANATICAL ABOUT QUALITY**

Why do we insist on employing skilled technicians and using new, original equipment parts, top-quality paint and materials, and state-of-the-art equipment? Because all of these things have a huge impact on the quality of our work! Sure our paint costs more than the paint used by the other guys...but it lasts a lifetime versus about three years. We don't care what others say – we know that used and aftermarket parts never look or fit quite right.

### **SKILLED VEHICLE REPAIR & RESTORATION EXPERTS**

From nearly exact paint color matching to full structural body repair; from repairing minor dents and scratches to restoring classic cars to their original beauty, we do it all. And we do it right the first time. We check and test all of our work to ensure that once you pick up your vehicle we won't be seeing you again anytime soon. Plus, we offer a full lifetime warranty (for as long as you own your vehicle) on every job we do for you.

*"After my car was hit by a motorcycle my insurance company cut me a check for \$966.50. When I took my car to Clark's he disputed the insurance company's estimate. They had 'overlooked' a large dent, 'missed' some hidden damages, and wanted to fix the rear bumper instead of replacing it. In the end Clark did \$2,611.42 of needed repairs – and my insurance company paid for it all."*
